

DIXIE

GRINDERS INCORPORATED

PG5000 PLATE GRINDER

We take a Van Norman FG5000 flywheel grinder and modify it in our shop to be able to sharpen all grinder plates ranging from 3” to 16” in diameter. The PG5000 uses our exclusive grinding wheel which is specifically designed for sharpening tool steel plates. Available with an optional magnetic table.

Solid cast iron rugged design, exclusive cast in table support, industrial quality gear motor direct table drive for constant torque are features found only in the face grinders from Van Norman. Setup is extremely fast and accurate. Supply costs are minimal and labor costs are low since a skilled machinist is not needed to operate the Van Norman face grinders.

Dixie Grinders Inc. is a proud member of the Food Processing Suppliers Association, the Southwestern Meat Association, the Southeastern Meat Association, the Alabama Poultry and Egg Association, the Marshall County Manufacturers Association, and the Lake Guntersville Chamber of Commerce. Dixie Grinders Inc. is an equal opportunity employer.
