## GRINDERS

### INCORPORATED

## MODEL 11-9 MEAT GRINDER

11 inch (279.4mm) Diameter Plate  
 9 inch (228.6mm) Diameter Feedscrew

### Production Rates

Pre-Grinding 600-1200 Pounds Per Minute  
 Final-Grinding 200-350 Pounds Per Minute

Production rates depend on a variety of factors, including the type of product being ground, the product's temperature and particle size, the speed of the grinder, hole size of the plate, and the plate configuration.

### Applications

Fresh, tempered, and frozen beef, pork, poultry, fish, bones, and other food products
