Established 1984 www.dixiegrinders.com

MODEL 11-10 MEAT GRINDER (MINCER)

11.0 inch (279 mm) Diameter Plate
10.4 inch (264 mm) Diameter Feedscrew

PRODUCTION RATES

Pre-Grinding 60,000 - 140,000 Pounds Per Hour
Final-Grinding 12,000 - 30,000 Pounds Per Hour

Production rates depend on a variety of factors, including the type of product being ground, the product's temperature and particle size, the speed of the grinder, hole size of the plate, and the plate configuration.

APPLICATIONS

Beef, pork, poultry, fish, bones, and other food products.
