Established 1984 www.dixiegrinders.com

MODEL 11-7 MEAT GRINDER (MINCER)

11 inch (279.4 mm) Diameter Plate
7 inch (177.8 mm) Diameter Feedscrew

PRODUCTION RATES

Pre-Grinding 12,000 - 28,000 Pounds Per Hour
Final-Grinding 12,000 - 18,000 Pounds Per Hour

Production rates depend on a variety of factors, including the type of product being ground, the product's temperature and particle size, the speed of the grinder, hole size of the plate, and the plate configuration.

APPLICATIONS

Fresh, tempered, and frozen poultry, pork, beef, and fish.
Animal by-products, including bones, skins, and hides.
